Only the officials of the Issuer have signed quarterly report for the accounting period

II. Key Information on the Financial and Economic Position of the Issuer

2.1. Indices of Issuer's Financial and Economic Performance

This information shall not be included in the quarterly report for the 4th quarter.

2.2. The Issuer's Market Capitalization

Market capitalization of the Issuer for the last 5 complete financial years, or for each complete fiscal year if the Issuer operates for less than 5 years and on the expiry date of the last complete accounting period:

Date	Market capitalization, USD*	Rate of exchange**
31.12.2000	112,093,230	28.1600
31.12.2001	79,637,115	30.1400
31.12.2002	258,739,486	31.7844
31.12.2003	347,793,753	29.4545

31.12.2005	425,530,604	28.7900

Market capitalization is calculated by the method for determining the Issuer's market capitalization recommended by the Provisions №05-5/pz-n on information disclosure by the issuers of emissive securities approved by FFMS of Russia.

The Issuer's market capitalization is calculated according to RTS stock exchange database as a product of the number of shares of the corresponding category (type) and the market price of one share of this category (type) disclosed by the organizer of trade in the securities market.

The market price is calculated according to the Provisions № 03-52/ps dated 24.12.2003 by Federal Commission on Securities Market of Russia taking into consideration the requirements to organizers of trade, in accordance with Order № 04-1245/pz dated 15.12.2004 of the RF FFMS.

There is no available information about the market price of ordinary and preference shares as at 31.12.2004. , There is no available information about the market price of preference shares as at 31.12.2005. Therefore, the market capitalization is calculated as a product of the number of shares of the corresponding category (type) and the weighted average price of one share of this category (type). The weighted average price of one share is calculated on the basis of 10 largest transactions concluded at the trading session in the RTS Stock Exchange in the month preceding the expiry date of the last reporting quarter, or in the last month of each complete financial year for which the Issuer's market capitalization is specified. If less than 10 transactions are concluded during the specified month, the average weighted price of one share shall be calculated on the basis of 10 largest transactions concluded at the trading session in the RTS Stock Exchange during three months preceding the expiry date of the last reporting quarter, or during three last months of each complete financial year for which the Issuer's market capitalization is specified.

No such agreements.

2.4. Goals of the Issue and Areas of Using the Funds Received as a Result of placement the Issued Securities

On January 12, 2006 Federal Financial Markets Service of Russia registered the Report on the results of the issue of 04-series non-convertible interest-bearing documentary pay-to-bearer bonds of Public Joint –Stock Company "Southern Telecommunications Company". The state registration number of 04-series bond issue is 4-08-00062-A dated 24 November 2005. The bond issue was placed by public subscription in the MICEX Stock Section on the 14-15th of December 2005. Pursuant to the Report on the results of the bond issue filed to FFMS of Russia, 5,000,000 (five million) bonds with the face value of 1,000 (one thousand) rubles each have been placed by the Issuer.

Goals of the issue: *debt optimization and smoothing of the peak payments under the Issuer's liabilities. A bond issue is the most cost-effective way to attract borrowed funds.*

Areas of Using the Funds Received as a Result of placement the Issued Securities: *it is planned that the funds obtained from placement of the Company's 04-series bonds will be used for optimization of the debt structure and its partial repayment.*

No funds obtained from placement of the Company's bonds will be directed to financing a specific transaction (interrelated transactions).

The Issuer is not a state or municipal unitary company.

2.5. Risks Related to Acquisition of the Placed Issued Securities (to be Placed)

2.5.1. Sector risks

The level of a competition in the Russian market of telecommunication services steadily grows. In spite of the fact that the market of fixed telephone services is shared among 7 inter-regional consolidated telecom operators, each of them being an absolute monopolist in the sphere of traditional services, we observe strengthening of competition with alternative operators in the sphere of providing new telecom services and services of long-distance telephony. One of the major factors of uncertainty still remains a tariff reform, character and terms of which remain unclear.

Deterioration of the market position of the Company can be caused by the following factors:

- *decrease in demand for services by the business sector in case of possible change of world prices for energy resources and non-ferrous metals;*
- *general downfall of the production volumes and economic growth impairment;*
- *the ruble devaluation rate exceeding the tariff growth rate, which would result in a significant increase of negative exchange rate margins and more expensive currency debt service;*
- *higher competition in the mobile communication sector by the largest mobile operators (OJSC "MTS", OJSC "MegaFon", OJSC "Vimpelcom"). We consider this risk to be the most essential of*

sector risks in the long term;

- higher charge rates of OJSC Rostelecom as the major long-distance and international communication operator providing the Issuer's access to the national network and international communication channels;

- economic risks typical for the Russian Federation in general, including predictable revisions of legislation resulting in lower earnings of the Issuer or in a stricter taxation procedure for income on securities.

In case of unfavorable development of the situation in the region the Issuer plans to:

- optimize its operating costs structure;
- reduce enterprise's expenses, including reduction and revision of Issuer's investment program;
- change the structure of provided services in order to maximize the profit.

Risks related to possible variation of prices for raw materials and services used by the Issuer in its business (separately for the domestic and international market):

"UTK" PJSC acts as a telecommunications operator; the Issuer does not export any products, works or services. The portion of imported equipment or its component parts is significant. So, change in prices for such equipment may affect the Issuer's business.

Impact of the above risks on the Issuer's business and fulfillment of its securities-related obligations:

Generally, influence of sector risks on the Issuer's business is estimated as moderate. Due to the Company's consolidation, "UTK" PJSC has obtained an opportunity to use unified infrastructure and technical means of the South of Russia, that allows to provide customers with the broadest range of telecom services in the regional market, as well as to develop inter-regional communication networks in order to reduce the cost of services and to increase profitability.

Though sector risks are unlikely to occur, the specified risks may result in decrease of the Issuer's revenues that will have an adverse effect on its paying capacity and fulfillment of its obligations in respect of securities.

Risks related to possible variation of prices for the Issuer's products and/or services (separately for the domestic and international market). Impact of the above risks on the Issuer's business and fulfillment of its securities-related obligations:

State regulation of the telecommunication industry brings risks and uncertainty common for all interregional companies into the Issuer's business. They are related to tariff revision and restricted cross-subsidizing. In particular, within the framework of reform of pricing of telecom services, local tariffs are to be increased and cross-subsidy of local telephony at the expense of long-distance services is to be eliminated. Work on improvement of tariff policy is carried out by holding of Svyazinvest together with Ministry of information technologies and communications of the Russian Federation and Federal Antimonopoly Service.

According to the active laws, the rates for services of operators recognized as natural monopolists are subject to regulation by the RF antitrust authorities. According to Federal law № 147-FZ of 17.08.1995 (restated on 31.12.2005) "On Natural Monopolists", interregional communication operators are natural monopolists, and their business is subject to regulation by antitrust authorities.

Any change in the rates charged by natural monopolist operators requires approval by the RF antitrust authorities, and may therefore lag behind the variations of the actual economic situation and of the operator's costs. Therefore, the natural monopolists see the risk of delayed tariff updating, which impairs their competitiveness and may adversely affect their business profitability.

According to the new law №126-FZ of 07.07.2003 (restated on 09.05.2005) "On communication", universal communication services are guaranteed in the RF. A universal communication service shall be provided by a universal service operator to be named in a bidding. Where no applicants are available, an operator having a material standing in the territory may be appointed as such operator. Currently, an interregional company is the only communication operator of such level over most of the RF. Therefore, it will be assigned the "universal service operator" functions. In this case, the operator may not deny the duties assigned thereto. The

"universal service" mechanism is to be introduced in the Russian Federation in 2006.

Provision of a universal service implies provision of a minimum scope of telecommunication services in all communities, and will require sizeable investments from the operator. The law "On communication" defines the mechanism ensuring recovery of losses to a universal service operator. However, such a mechanism has not been developed so far. There is a risk for future universal service operators of delayed and incomplete refunding of their losses, which would entail growing accounts receivable and lower profitability of the operator's business. When the universal communication service is introduced, all active communication operators in the RF will have to make regular deductions to the universal service reserve. However, the industrial regulatory documents do not describe the mechanism of calculation or revision of the size of such deductions, which means a risk for communication operators. The deductions to the reserve will entail a risk of lower profitability of the operator's business.

2.5.2. National and regional risks

Main factors of national risks are the following:

- imperfection of the legislation regulating economic relations;*
- inefficiency of judicial system;*

Economic situation in the Southern Federal district may become worse in case of material changes in the economic situation in Russia, including drastic changes of national currency exchange rate that may result in reduction of the number of industry and agricultural enterprises of all forms of ownership operating in the country, growth of unemployment, decrease in the solvent demand of population. Such succession of events would result in suspension of the Issuer's investment program, decrease in volume of telecommunications services provided by the Issuer in the country and the Southern federal district, and slowdown of revenue base growth.

Results of the elections to the State Duma and the presidential elections in Russia held on March 14, 2004 allow to predict with confidence that economic, legal and other reforms in the country will be continued that will result in increase in political and economic stability. In connection therewith we can speak about the essential downtrend of national risks. Their effect on the Issuer's economic operations can be recognized immaterial in the intermediate-term prospect.

Regional risks should be estimated as more significant, than national ones due to the fact that the Issuer operates in the territory of Northern Caucasus, which is the most politically unstable region of Russia.

Among the factors of regional investment risk for SFD, sociopolitical risks owing to presence of the potential centers of development of conflicts in boundary territories of Northern Caucasian Republics and affinity of the Chechen republic are of the greatest importance. The basic risks are connected with the possibility of nationalization of the private capitals at sharp change of a political policy or their destruction in case of armed conflict. There is a risk of armed conflicts in Northern Caucasian republics and, therefore, faulty operation of cellular operators, serving the territory, and increase in traffic volume passing through UTK's communication networks. In case of emergency all communication facilities will be under strong protection of security service of "UTK" PJSC and FGUP "Svyaz -Bezopasnost". However, the basic part of the territory of the Southern federal district is occupied by the subjects of the Russian Federation with quite favorable conditions for business development. It is important to note that "UTK" PJSC does not operate in the territory of the Chechen and Ingush republics which sociopolitical instability considerably worsens an integrated risk parameter of SFD.

At present process of creation of vertically and horizontally integrated holdings, reorganization of the companies continues in the district that in the future may lead to increase of efficiency of business sector of the district, and thus to growth of investments into economy of SFD. In opinion of the Issuer, an economic situation in the region and relations with administrations of the subjects of the Federation and municipalities are developing positively that affects favorably the activity of the company and execution of its obligations.

The territory of the Northern - Caucasian district is characterized by high natural and climatic risks connected with geographical features of the region. At the same time "Southern Telecommunications Company" PJSC has many years' experience of successful liquidation of

consequences of acts of nature related to technical means and telecom infrastructure. "UTK" PJSC closely cooperates with federal and regional bodies of the Ministry of Emergency Measures of Russia and in case emergency gets essential state support. "UTK" PJSC carries out regularly preventive actions with a view of prevention and minimization of influence of unfavorable climatic conditions on efficiency of the Company's economic activities.

In case of any deterioration of the situation in the district, the Issuer will fulfill its obligations under securities at the expense of its operating profit and, if necessary, it will attract commercial bank credits for that purpose.

On the basis of the abovementioned facts we can make a conclusion about the moderate level of regional risks.

2.5.3. Financial risks

Risks associated with change of interest rates, exchange rate of foreign currencies (in connection with the Issuer's operations or hedging carried out to reduce adverse results of the above-stated risks):

The situation in the credit market is characterized by stable interest rates having an insignificant downtrend that allows to speak about the insignificant risks connected with change of interest rates.

Interest rates of commercial banks being reduced, the Issuer undertakes measures on change of conditions of the current credit contracts and agreements relating to reduction of cost of credits, as well as on advanced repayment of costly credits.

Changes of the currency exchange rate may increase the expenses and reduce the reserves of the Issuer or hamper repayment of its debts.

Influence of the change of the exchange rate on the financial condition of the Issuer (its liquidity, sources of financing, performance results) (currency risks):

A certain part of expenses and liabilities of the Issuer is nominated in US dollar and Euro (0.8% and 2.5 % respectively as of December 31, 2005). The risk remains that rate of growth of tariffs will lag behind rates of falling of a ruble exchange rate. In case of a decrease of the ruble exchange rate ahead of the increase of the rates for services, the Issuer may experience difficulties in payment or re-financing of a debt in foreign currency in case of sharp devaluation of ruble of the Russian Federation in relation to US dollar and euro. In addition, the Issuer takes measures on decrease of the share of a debt in foreign currency in structure of a credit portfolio.

Should a dollar exchange rate increase, the Issuer will replace obligations nominated in US dollar with ruble obligations.

During the last years the inflation rate in Russia has been decreasing. In 2002 the inflation rate was 15.1 %, in 2003 – 12 %, in 2004 – 11.6 %, in 2005 – 10.9%. In 2006 the Ministry of Finance plans the lowest in the new history of Russia inflation rate (from 8 % to 9 %).

From the point of view of the Issuer's financial results, the effect of the inflation factor is polyvalent. Lower inflation rates given a continuing economic growth will promote further growth of real earnings of the population and the corporate sector, thus increasing consumption of communication services. On the contrary, higher price rise rates may result both in lower consumption of communication services and in the Issuer's higher costs (for example, due to a fuel price rise) and higher borrowed funds cost, causing a decrease in profitability indices. Therefore, in case of the inflation rates increasing to critical 25%, the Issuer intends to take actions to restrict the cost increase, to cut down the accounts receivable, and to reduce their average periods.

Indicators of the financial reporting of the Issuer most subject to financial risks:

In the Issuer's opinion, main financial indicators of the Issuer - profit and cost price of services - are most subject to influence of the financial risks listed herein. Financial risks have a minimum effect on revenues. Probability of financial risks listed herein (sudden change of exchange rates, inflation, growth of interest rates) is estimated by the Issuer as low for the nearest years. Nevertheless, should such risks occur, cost price of services provided and reduction of profit are possible and it can be compensated by tariff growth and decrease in volume of borrowed funds.

Risks influencing the financial indicators of the Issuer	Probability of their occurrence	Changes in financial reports
Change of interest rates	Low	Change of interest rates may influence the Issuer's policy on debt management
Change of the exchange rate	Low	Changes of the currency exchange rate may increase the expenses and reduce the reserves of the Issuer or hamper repayment of its debts.
Inflation	Low	Inflation may result in increase of expenses of the Company (because of the increased prices of fixed assets, materials, works and services of outsider organizations)) and, as a consequence, in a drop in profits of the Issuer and, respectively, in the profitability of its business. Besides, growth of inflation will lead to an increase in the borrowed funds value for the Issuer, which may result in shortage of the Company's working capital

2.5.4. Legal risks

"UTK" PJSC acts as a telecommunications operator; the Issuer does not export any products, works or services. In this connection we describe legal risks only for domestic market.

Risks of change of currency exchange regulations:

Risks connected to change of currency exchange regulation are minimal in the Issuer's opinion. Risks connected to the change of the currency exchange legislation are being reduced due to the current policy on liberalization of currency exchange regulation.

Risks of change of tax legislation:

1. Federal law No. 137-FZ "On Amending Some Legislative Acts of the Russian Federation and Declaring Some Provisions of the Legislative Acts of the Russian Federation Invalid Due to the Implementation of Measures Aimed at Modernization of Administrative Procedures for the Disputes Settlement" dated November 4, 2005 has become effective since January 1, 2006.

This Law

1) expands authority of tax bodies related to:

a determination whether a taxpayer is guilty or not of tax violations; establishment of the circumstances significant for determination of liability for violations: mitigating and aggravating (Articles 108, 112 of the RF Tax Code);

b out-of-court procedure for levying tax penalties from organizations and individual entrepreneurs (Article 103.1 of the RF Tax Code);

2) defines the procedure for levy of underpaid amounts on insurance payments, penalties and penalizing interest based on the decisions of regional bodies of the Russia Pension Fund including indisputable levy of penalties and underpaid amounts and penalizing interest (Article 25.1 of Federal Law N 167-FZ of 15.12.2001);

3) enables the Russia Pension Fund bodies to settle disputes with payers (Articles 25, 25.1 of Federal Law N 167-FZ of 15.12.2001);

2. Article 1 of Federal law № 139-FZ of 11.11.2003 "On making addition in the second part of the Tax code of the Russian Federation and making amendments and additions in Article 20 of the Law of the Russian Federation "On Tax structure in the Russian Federation", as well as on declaring invalid legal acts of the Russian Federation regarding taxes and dues" has become effective since

January, 1 2004. Item 30 "Property Tax of organizations" has been added to chapter IX of the second part of the Tax Code of the Russian Federation.

3. Article 27 of the second Part of the Tax Code of the Russian Federation (purchase tax) has become ineffective since January 1, 2004 – Federal Law № 148-FZ of 27.11.2001.

4. Since Customs Code of the Russian Federation had come into force from January 1, 2004, corresponding amendments were introduced in Parts I and II of the Tax Code of the Russian Federation as well as into Federal Law № 120-FZ of 21.11.1996 "On Accounting" (article 438 of Federal law № 61-FZ of 28.05.2003).

5. Pursuant to the Decree of the Government of the Russian Federation № 84 of 16.02.2004, amendments were introduced into the Rules of book-keeping of invoices, books of records of purchases and sales when calculating value-added tax, approved by the Decision of the Government of the Russian Federation № 914 of 02.12.2000.

In case of observance and correct application of norms of the above-stated legal acts the Issuer has no risks related to its activity.

Russian tax legislation is subject to varying interpretations and frequent changes. Recent events in the Russian Federation show that the interpretation of the tax legislation by the tax authorities can be very strict. As a result, tax authorities may challenge transactions and accounting principles, not claimed by them before, and the Company may be assessed additional taxes, penalties and interest which can be significant. Tax books remain open to review by the tax authorities for three years.

Under certain conditions, even earlier periods may be audited.

Recent court decisions of various degrees of jurisdiction of the Russian Federation on privatization and taxation matters casting doubt on some law interpretations, that has been universally accepted until recently, increase risk of possible trials for many Russia companies, including the Issuer.

The Issuer's management believes that the corresponding provisions of the current law are interpreted by it correctly, and the position of the Company in respect to law observance is most likely to remain intact. At the same time it is highly probable that the current opinions of the Issuer's management in respect of some law interpretations and taxation matters can be later on considered by the state fiscal bodies as not having sufficient ground. Financial (accounting) reports does not contain corrections which may be needed due to such uncertainties and opinions of the Issuer.

Risks associated with change of customs laws and duties:

New Customs Code of the Russian Federation has come into force from January 1, 2004 approved by Federal Law № 61-FZ of 28.05.2003.

Customs Code of the Russian Federation approved by Supreme Soviet of the Russian Federation № 5221-1 of 18.06.93 remains in force regarding items 6, 8 of Article 110, Articles 114, 116 as well as Article 119 (regarding customs duties), which will remain effective till January 1, 2006.

Normative legal acts of the State Customs Committee of Russia, issued with a view of realization of the new Customs code of the Russian Federation were listed in the letter of the State Customs Committee of the Russian Federation № 14-10/7236 of 27.02.2004 "On coming into force, including in I quarter of 2004, of normative legal acts of the State Customs Committee of Russia issued with a view of realization of the Customs code of the Russian Federation". It is also noted that prior to coming into force of normative legal acts of the State Customs Committee of Russia issued with a view of realization of new edition of the Customs code of the Russian Federation, normative and other legal acts of the State Customs Committee of Russia, issued before 31.12.2003 remain valid in the part not contradicting new edition of the Customs code of the Russian Federation.

Regulations of the Central Bank of the Russian Federation № 258-Å "On the procedure for providing to the authorized banks documents and materials confirming legality of currency transactions effected with non-residents under international contracts by residents, and the procedure of the control over currency transactions by the authorized banks" effective since June 1, 2004 are specified among the statutory acts that have come into force.

As the most part of acquired telecommunications equipment is imported or made of component parts of foreign manufacture, change of the customs Rules and customs duties can result in certain risks

for the Issuer associated with rise in prices of acquired equipment.

Russian customs legislation is subject to varying interpretations and frequent changes. Recent events in the Russian Federation show that the interpretation of the customs legislation by the customs authorities can be very strict. As a result, tax authorities may challenge transactions and accounting principles, not claimed by them before, and the Company may be assessed additional taxes, penalties and interest which can be significant. Tax books remain open to review by the tax authorities for three years. Under certain conditions, even earlier periods may be audited.

New Customs code has reduced the risks associated with the procedures of customs registration and customs supervision. The new code is based on the provisions of the new edition of Kyoto treaty on simplification and harmonization of customs procedures; it eliminates contradictions and discrepancies of the provisions of the previous Customs code with civil, tax and administrative legislations.

Effect of changed requirements for licensing of the Issuer's core business or for licensing of the rights to use facilities of restricted circulation (natural resources included):

The main risks are connected with regulatory uncertainty in the telecommunications sector due to new Federal Law "On Telecommunications" effective since January 1, 2004.

A number of statutory acts regulating licensing of telecom services is under development stage, and the existing by-laws do not fully correspond to the requirements of the new law. At the moment the management of the Issuer cannot predict the effect these risks on the Issuer's business.

Risks of changes in judiciary practices on the matters relating to the Issuer's activity (including on licensing matters) which can have an adverse effect on its performance results as well as the results of the current litigations in which the Issuer is a participant:

Changes in court practices on the matters relating to the Issuer's activity are possible due to coming into force of the new law "On Telecommunications". Such changes in court practices are possible in favor of both the Issuer and its opponents. There is also a risk of occurrence of new kinds of litigations.

Changes in court practices on the matters relating to the Issuer's activity cannot affect essentially its performance results, as well as the results of the current lawsuits of the Issuer with the third parties as the current lawsuits have no adverse effect on the Issuer's core activity (volume of claims against the Issuer under the existing lawsuits is insignificant in proportion to its total turnover).

At present main legal risks are associated with uncertainties in legal regulation of separate kinds of services and conditions of economic activities in the telecommunications sector after coming into force since January 01, 2004 of Federal law № 126-FZ "On Telecommunications". More than 30 statutory acts regulating various operations in the sphere of rendering telecom services should be developed and accepted in connection with the new Law. But till now such statutory acts are under development stage, and the existing by-laws do not fully correspond to the requirements of the new law.

2.5.5. Risks connected to the Issuer's activity

Company-specific risks, including:

Risks related to the current litigations in which the Issuer is a participant:

In July 2005 the Ministry of Finance of the Russian Federation advanced a claim to the Issuer concerning the repayment of debts due to Vnesheconombank valued at 814,306 thousand rubles as of December 31, 2005. The Issuer negotiates with representatives of the Ministry of Finance of the Russian Federation on re-structuring of the specified debts.

In 4Q2005 "UTK" PJSC registered a claim in Moscow Arbitration court demanding to declare invalid the decision of tax bodies, namely, Decision N 9 of 16 December 2005 resulting in back-tax claim N198 (ref. N58-11-09/7257) of 21 December 2005 issued to "Southern Telecommunications Company" PJSC. According to the Decision underpaid taxes amounted to 677,979,856.04 rubles and the amount of penalties interest made 240,261,304.64 rubles; the underpaid taxes and penalties should be paid till 30 December 2005.

Risks concerning a possibility of prolongation of the Issuer licenses:

In compliance with Decree No. 314 of the President of the RF dated March 9, 2004 and with the RF Government Resolution No. 163 of 06.04.2004, communication business will be licensed by the Federal Communication Supervision Service. The period of "UTK" PJSC licenses expires at different times in the range of the years 2005 - 2012 and can be prolonged after submitting an application to the Federal Communication Supervision Service. "UTK" PJSC has no guarantees that the licenses will be extended upon expiry of their term of validity, and that the liabilities will not be increased and/ or that the rights will not be reduced under extended licenses, which would involve higher costs, and possibly a restriction of the communication service zone. If the Issuer is unable to extend the existing licenses or to obtain updated licenses on conditions comparable to the current ones, it will have to reduce the scope of services provided, which will entail a decrease of the number of subscribers. On the other hand, the term of validity of the licenses for provision of communication services making the largest segment in the Company's earnings is four to nine years, which materially reduces the mid-term risk of uncertainty in license prolongation.

Risks concerning a possibility of prolongation of the Issuer's licenses for use of objects having limited circulation (including natural resources):

At present such risks are considered as minimal.

Other risks related to possible liabilities of the Issuer for third parties' debts, including the Issuer's subsidiaries:

Total amount of liabilities of the Issuer for third parties' debts, including in the form of a pledge or a guarantee, makes 2,351,275.12 ths rubles as of 31 December 2005.

Risks related to liabilities of the Issuer for the debts of its subsidiaries are minimal, as the Issuer has no right to give obligatory instructions for subsidiaries (such right is not stipulated by the charters of subsidiaries or by the contracts with them).

Risks associated with possible loss of customers accounting for more than 10 percent of the Issuer's total revenue from sale of products (works, services):

There are no customers accounting for more than 10 percent of the Issuer's total revenue from sale of products (works, services). Therefore, there are no risks associated with possible loss of such customers.

Other risks:

Article 47 of Federal Law № 126-FZ «On communications» changing the procedure of providing telecom services to residential customers entitled to special discounts came into force in 2005. Since January 2005 special discount customers must pay in full for telecom services rendered to them. Later, their expenses must be compensated directly from the budget of a corresponding level. The Issuer's management believes that monetization of benefits will allow the Company to reduce this type of receivables.

3.3. Plans of Issuer's Future Operation

According to the Company's budget for 2006 approved by the Board of Directors (Minutes № 20 of 13 December 2005) "Southern Telecommunications Company" PJSC expects to generate 2006 total revenue of RUR 15,914 mln which is down 12% over 2005 estimated results. Revenues from core activity (sale of telecom services) are to be decreased by 15.6% to RUR 15,051.8 mln including from local telephony – RUR 8,405 mln, from long-distance telephony – RUR 2,943.7 mln, from value-added services – RUR 1,710 mln (representing a 16.6%-increase over 2005E). Decrease in 2006 revenues is attributable to liberalization of long-distance market.

One of the main directions of "UTK" PJSC business activity in order to increase revenues, raise the Company's business efficiency and strengthen its financial position is the increase in number of basic telephone sets. "UTK" PJSC is actively developing its communication network and increasing its number capacity. In 2006 the numbering capacity of 125,337 lines is to be put into operation and the number of basic telephones is to increase by 43,496 sets. Total installed capacity is expected to reach 4, 286.16 thousand lines at the end of 2006.

When planning revenue structure the Company gives preference to growth of value-added services' share. Internet broadband access, IP telephony and VPN services are the most profitable and promising now. UTK's main task for 2006 is to strengthen its position in the market of perspective and higher-margin services and to increase VAS share in total revenue structure in order to raise the Company's business efficiency.

Implementation of 2006 investment plan will allow to increase the digitization rate to 63,58%, equipped number capacity level – to 95.2%.

The Company's development plans are supported by 2006 plan of capital expenditures, which provide for RUR 1,699.9 mln of capital investments and about RUR 2,613 mln of basic assets to be put into operation.

2006 investments will be funded mainly from the Company's own funds.

Medium-term strategic directions of "UTK" PJSC development:

- *to strengthen the Company's leading positions in the fixed-line market; by the end of 2006 to increase UTK's share in regional fixed line market revenue to at least 84 %;*
- *to retain UTK's aggregate share in SFD telecommunications revenues of at least 34%;*
- *meeting the solvent demand for key telecom services by increase of equipped number capacity;*
- *development of public Internet-access center, connection of regional data transmission networks to Internet;*
- *introduction of intelligent services;*
- *improvement of corporate client service, formation of optimal bundle of services for corporate clients;*
- *equipping public communication centers with conferencing equipment, selling services to corporate users, active target advertising;*
- *to increase the Company's share in the value-added services market to at least 50%*
- *to increase VAS share in total 2006 revenues to at least 10%*
- *to increase the Company's share in the business market segment to at least 55%*
- *to stir up the Company's investment and marketing activities in priority local regions*

Long-term strategic directions of "UTK" PJSC development:

- creation of up-to-date telecommunication system including imposed digital telecommunication network equipped with digital automatic switching exchanges, digital transmission systems, fiber-optic communication lines (FOLs);
- introduction of new technologies: ISDN, IP-telephony, ATM, xDSL;
- integration of communication and management infrastructures with international informational and switching systems;
- improvement of the provided services;
- optimization of the provided services' list, aiming at increasing proportion of the most progressive services;
- maximization of the Company's profitability;
- optimal tariff policy taking into consideration interests of the Company and its shareholders;
- pressing marketing policy;
- hard control of expenditures' volume;
- improvement of corporate management

"UTK" PJSC does not plan to change type of its key activity – rendering telecom services according to the licenses in force and the Company Charter.

Sources of future revenues:

The main sources of future revenues are rendering telecommunications services (providing value-added services, growth of the volume of long-distance traffic).

Structure and amount of the Issuer's current assets are not shown because this information is calculated on the basis of financial reporting as at 31.12.2005 to be presented within 90 days after the end of the year.

Sources of financing the Issuer's circulating assets:

Sources of financing the Issuer's circulating assets are not shown because this information is calculated on the basis of financial reporting as at 31.12.2005 to be presented within 90 days after the end of the year.

The Issuer's policy on financing the Issuer's working capital:

The Issuer tries to minimize the current accounts payable, which makes it possible to ensure smaller liquidity risk and greater total efficiency. Such strategy requires usage of long-term liabilities and own capital for financing most part of working capital.

Factors that may result in changing the policy of financing the circulating assets

- *actions aimed at reduction of accounts receivable, decrease of the stock level, acceleration of the circulating assets turnover;*

- *growth of market prices of working stock and other kinds of inventories;*
- *financial risks associated with the change of interest rates caused by possible alteration of refinancing rates of the Central Bank of the Russian Federation;*
- *change of prices on services provided by the Issuer.*

Probability of such factors' occurrence:

- *the Issuer's policy on assets management regarding receivables and stock is aimed at reduction of their level and turnover period. Possibility of negative influence of the given factor on financing the working capital is estimated as low;*
- *cost of bank credits and the rate of refinancing of the Central Bank of the Russian Federation have a downward tendency. Possibility of adverse effect of the given factor on financing the working capital is estimated as low;*
- *prices of inventories used by the Issuer in its business activity are not liable to the sudden ups and downs of the market. Possibility of adverse effect of the given factor on financing the working capital is estimated as low;*
- *the Issuer's marketing strategy is aimed at broadening its activity in the market sectors with non-regulated prices and tariffs. Possibility of adverse effect of the given factor on financing the working capital is estimated as low.*

4.3.3. Issuer's Intangible Assets

This information shall not be included in the quarterly report for the 4th quarter.

4.4. Data on the policy and expenses of the issuer in the field of scientific and technical development, in respect of licenses and patents, new designs and research

The Issuer's expenses in the field of scientific and technical development in the reporting period preceding the expiry date of the previous reporting period, in respect of licenses and patents, new designs and research at the expense of the Issuer's own funds in such reporting period.

In the context of the policy of technical development "UTK" PJSC obtains and maintains the licenses necessary for providing full range of telecom services to potential and existing customers.

Data on creation and obtaining the legal protection by the Issuer of the basic objects of the intellectual property (including data on the date of issue and termination of patents for invention, utility model and industrial model, on the state registration of trade marks and service marks, names of the place of products' origin):

1) Certificate of trade mark (service mark) № 243488

Registered in the State Register of trade marks and service marks of the Russian Federation on April 15, 2003.

Period of validity - 10 years

Holder of right: "UTK" PJSC

The main direction of the trademark's usage is its usage when rendering all kinds of services by the Issuer, protection of the registered name of the Company, creation of strong advertising brand. Results of usage: Making the Company more recognizable, the Company's positioning in the telecom market

2) Computer-based billing system ASR "KURS"

Conformance certificate № OS/I-ST-170 issued on 9.08.2001 by the Ministry for Communications of the Russian Federation, valid till 9.08.2004.

Purpose: automation of business accounting.

The Issuer intends to extend the certificate.

3) Software ASU BUKHUCHOT

Contract № 1-97 of 5.03.1997 with the company "Kubaninformholding" for right of software usage (date of registration 31.07.1999). Contractual time is 10 years. Purpose: automation of business

Risk associated with the possibility of withdrawal of the certificate on usage of trademarks:

The main risks are connected with regulatory uncertainty in the telecommunications sector due to new Federal Law № 126 "On Telecommunications" of July 7, 2003, effective since January 1, 2004. A number of statutory acts regulating licensing of telecom services is under development stage, and the existing by-laws do not fully correspond to the requirements of the new law. At the moment the management of the Issuer cannot predict the effect of these risks on the Issuer's business.

4.5. Analysis of the Development Trends in the Sector of the Issuer's Principal Activity

During many years telecom sector of Russia has a growing tendency of industrial and economic activity. It demonstrates increase of solvent demand for telecom services and growth of volume of the provided telecom services. Investment activity of the telecom sector is increasing against the background of economic growth in all telecom market segments.

In 1H03 process of reorganization of Svyazinvest holding structure completed and resulted in creation of seven interregional telecom companies which could be compared with East-European operators of fixed communications. Completion of the legal procedure of reorganization of Svyazinvest subsidiaries has become an initial phase of reforming telecom sector. At present corporate restructuring of the consolidated telecoms is being carried out.

The basic tendencies in telecommunications sector within the next few years will be the following:

- transition to time-based billing system for local outgoing calls;
- fundamental improvement of tariff policy;
- increase of a technical level of public telephone systems.

The Federal Tariff Service has set new tariffs for local and intercity telephone calls in the Republic of Adygeia, Republic of Kabardino-Balkaria, Republic of Kalmykia, Republic of Karachaevo-Cherkessia, Republic of the North Osetia-Alaniya, the Astrakhan region, the Volgograd region, the Krasnodarsky krai, the Rostov region, and Stavropolsky krai (orders by FTS head №№376-c10 and 375-c9, dated August 17, 2005). effective since September 1, 2005.

The monthly subscriber's rental was raised on average by 20% for residential customers and 15% - for businesses. In order to restrict cross-subsidizing and taking into consideration sizable decrease in growth rate of long-distance traffic volume, the FTS of Russia took a decision to cut the long-distance connection rates for individuals and legal entities by average of 4.1%.

According to the adopted decision on local tariffs growth and on simultaneous decrease in long-distance tariffs, the average increase in tariffs has made 8.2%.

The communication industry's segment in GDP is constantly increasing (2001 – 2.1%, 2002 – 2.4%, 2003 – 2.9%), which corresponds to the following absolute values: 2001 – RUR 183.9 bln, 2002 – RUR 217.6 bln, 2003 – RUR 385.8 bln.

In 2004 the RF communication market volume rose 37 % to 540 billion rubles. Share of communication and IT sector in gross domestic product reached 5 % in 2004.

According to estimates of the RF Ministry of economic development and trade for 2005, the volume of telecom services provided by telecom companies to national economy and population (including connection fees and traffic transit) increased by 21.2 % over a year-ago. Gross domestic product for the same period (according to estimates of the RF Ministry of economic development and trade) increased by 6.4 %.

One of the strategic directions of telecom sector development in the nearest future is radical improvement of tariff policy of the telecom companies. The key points here are to bring telecom tariffs to the level of economically justified costs and to minimize cross subsidizing of various telecom services. This improvement implies growth of local telephony tariffs to put an end to its subsidizing by long-distance and international telephony. "Svyazinvest" PJSC works out new tariff policy together with Ministry of Telecommunications and Informatics of the Russian Federation and Federal Anti-Monopoly Service of the Russian Federation.

Main factors of the Issuer's tariff income growth in medium-term outlook will be the following:

- Growth of local tariffs;

- Increase of long-distance traffic per line due to improvement of the residents' standard of living and growth of revenues from business sector;
- Considerable increase in number of communication lines in operation and as a result growth of telephone density in the country;
- Growth of revenues from value-added telecom services especially from providing Internet access, because this market segment is characterized by low satiety level.

Heavy capital investments will be continued to extend and modernize public telephone and data transmission networks of the united telecom companies in the Federal Districts aimed at liquidation of waiting lists for installation of telephone sets and increase of level of network digitization.

Development of the Issuer's business corresponds to the general development tendencies of the telecommunications sector.

Key factors influencing telecommunications sector:

- change in sector regulations by state (including price-formation policy on regulated telecom services, availability of licenses, implementation of the sector's reform);
- general condition of national economy, as telecommunications being an infrastructural industry, is very sensitive to such changes.

Key highlights of the Issuer:

In 2004 the Company had positive results: [u1]

- 2004 revenue increased 24% over 2003 mainly due to DLD and ILD traffic growth, local tariff (monthly subscriber fee) increase and subscriber base enhancement;
- EBITDA is up 25.3% over 2003;
- Outstanding debt decreased by 0.63%;
- labor productivity is up 29%.

Revenues from:

- local telephony increased by 23%;
- long-distance telephony grew by 13%.

The Issuer's business development is in line with the industry's overall trends.

Grounds for the received activity results (satisfactory and unsatisfactory results in the opinion of the Issuer):

Telecommunications sector development corresponds to common positive trends in the Russia economy. The sector has been developing dynamically during the last several years: new technologies and new services have appeared; solvent demand for telecom services has increased. The Issuer's activity is aimed at providing full range of telecom services to wide circle of customers.

Factors and terms having effect on the Issuer's activity and its performance results:

The main risk factors of the Issuer's activity:

1) The most recent version of the federal law "On Telecommunications" came into effect on 1 January 2004. It determines the authority that various branches of the government exercise over the regulation of the telecommunications sector. The law can increase a degree of regulation of the Issuer's business. Till the moment of approval of the corresponding normative acts, the period of contradictions and uncertainties relating to different interpretation of the Law by regulating authorities is inevitable.

Pursuant to the new Law the Company is obliged to establish equal status of connection of communication networks and pass-through of traffic for telecom operators providing similar services and to render to these operators services on connection and pass-through of traffic on the same conditions and of the same quality as for its own structural divisions and affiliated persons.

In addition, according to the new Law "On Telecommunications" a subscriber (natural person) has the right to choose form of payment for local telephone calls: monthly subscriber fee or time-based

billing system of payment.

The management cannot predict effect of the new Law on the Company activity.

2) Running processes of integration of alternative telecoms in large holdings.

Forecast concerning duration of the specified factors and conditions:

It is difficult to predict the duration of the main adverse factors because it is impossible to determine the period of validity of the main law regulating activity in telecommunications sector. Integration process of alternative operators is very dynamic and it will be continued for several more years.

Actions undertaken by the Issuer and actions which the Issuer plans to undertake in the future for effective usage of the given factors and conditions:

The Issuer is going to make advantage of its main competitive strengths.

Actions taken by the Issuer and actions which the Issuer plans to undertake in the future in order to diminish negative effect of factors and conditions influencing the Issuer's business:

The Issuer takes and plans to take the following actions:

- *development of cable TV. High quality of video transmission, a lot of digital, analog and satellite channels to any taste and availability of many additional services, such as high-speed Internet access, IP telephony, telex, intruder and fire alarm systems and others, attract great number of customers;*

- *rendering of new additional service under the brand "DiSeL-TV" in the Krasnodar krai for broadband Internet subscribers using ADSL2+ technology. "DiSeL-TV" bundle includes 33 TV channels with digital quality of video and audio signals. In future the Company plans to extend a list of TV channels for viewing and to provide video upon request;*

- *further improvements in range and quality of offered services as well as in customer service in order to attract new clients including large corporate clients.*

Essential events / factors which can have a negative effect on the opportunity of the Issuer to receive similar or better future results than those received in the last accounting period. Probability of occurrence of such events (factors):

Among major factors are liberalization of long-distance market and privatization of Svyazinvest. However it is not obviously possible at the moment to estimate the size and influence of the given factors. The probability of their occurrence is high in 2006-2007.

In future the main negative effect is expected from strengthening of competition especially with mobile operators. Probability of the situation that mobile operators will be strong competitors is very high, since they are actively building up their presence in all regional markets.

Main existing and potential competitors of the Issuer in the sphere of its core activity including foreign ones. Competitive capacity factors of the Issuer with the description of a degree of their influence on competitive power of products (jobs, services).

As of 1 January 2006 451 telecom operators operated in the territory of the Southern Federal District, 117 of them being Internet-providers, 174 – providers of local and long-distance telephone services. But main competitors of "Southern Telecommunications Company" PJSC in SFD telecom market are cellular operators. 46 cellular operators representing 13 trademarks operate in the Company's licensed territory.

In spite of high level of competition "UTK" PJSC maintains major market share of traditional fixed-line services. According to 2005 preliminary results total market share of "UTK" PJSC in the aggregate SFD fixed-line market constituted 82%.

According to 2005 estimates UTK's share of regional telecom market was:

- *93% - local telephony;*
- *90% - long-distance telephony;*
- *48% - value-added telecom services.*

As a whole UTK's market share was estimated at 35.4% in 2005.

"Southern Telecommunications Company" PJSC states the following priority tasks:

- *Introducing new technologies and services being in line with market development trends and meeting customers' real requirements*
- *Making value-added services more competitive*
- *Developing integrated data networks (multi-service networks) in the Southern Federal District*
- *Introduction and deployment of pre-paid universal service cards throughout the licensed territory of "UTK" PJSC.*
- *Technical realization of intra-regional service roaming.*
- *Provision of bundle services.*

Priority services provided by the Issuer are the following:

- *Broadband Internet access*
- *Call-center services*
- *Intelligent services*
- *Services of multimedia and multi service networks (including digital cable TV and IP-TV)*
- *Content services*
- *Construction of VPN*

One of the priorities in the service sphere is introduction and further development of pre-paid service cards including universal cards, development of "self-service" system, as well as development of the content to be accessed by subscribers through various information access channels (Internet, E-mail, SMS, WAP, IVR, operators of the Contact-center).

Market shares of the Issuer and its competitors for the last five fiscal years in opinion of the Issuer:

Name	Country of registration	Volume of sold products, RUR thousand (2002-2005)	Market share, %			
			2002	2003	2004	2005E

Other operators	Russia	15,887,732.24	20.5	12.3	8.9	7.9

Analysis of the factors of the Issuer's competitive capacity:

- *the table shows estimations of competitive power of "UTK" PJSC and its competitors: cellular and fixed line operators, Internet and IP-telephony providers;*
- *quantitative estimations of the factors of the competitive capacity shown in the table represent aggregate average estimations received from end users of services;*

- **Bottom-line value of the competitive capacity of the Issuer is calculated taking into consideration a rate of importance of such factors.**

Members of the Management Board* , RUR	33,403,903	12,193,898	6,440,777	52,038,578

**Amount of remuneration paid to Ignatenko I.F. who was the member of the Board of Directors and the Management Board in 2004 is included in the specified amount of remuneration paid to the members of the Management Board.*

According to the Provisions on the Company's Board of Directors approved by the Extraordinary General Shareholders' Meeting on January 21, 2003 (Minutes # 13) and amended on June 30, 2004 (Minutes of the Annual General Shareholders' Meeting # 15), June 30, 2005 (Minutes of the Annual General Shareholders' Meeting #16) remuneration of the members of the Board of Directors shall include quarterly and yearly remunerations.

1) Quarterly remuneration to each member of the Board of Directors shall be established in the amount of 200, 000 rubles.

Remuneration to the Chairman of the Board of Directors shall be set with a raising coefficient 1.5.

Remuneration to a member of the Board of Directors shall be cut down by:

30 percent – in case of his attendance at less than a half of the Board of Directors meetings held in the form of joint personal presence;

100 percent – in case of his attendance at less than a half of the held Board of Directors meetings.

Remuneration for the quarter, in which re-election of the Board of Directors was held, shall be paid to the members of the Board of Directors in proportion to the hours worked during the quarter.

2) The annual remuneration for the entire body of the Board of Directors of the Company shall be rated as a sum of:

percentage of the Company's EBITDA for the reported year as per the Company's financial statements in accordance with IFRS;

percentage of the Company's net profit allocated to dividend payment according to the financial results of the reporting year;

The annual remuneration shall be distributed among all the directors by equal shares.

The annual remuneration to a member of the Board of Directors shall be reduced by 50 percent, should he attend less than a half of the Board of Directors meetings held during his term of office.

Percent of deductions for calculation of the annual remuneration shall be determined by the resolution of the General Shareholders' Meeting electing the current membership of the Board of Directors.

The annual remuneration shall be paid to a member of the Board of Directors not later than three months after termination of the term of office of the current membership of the Board of Directors.

Should a member of the Board of Directors be also a member of a Board of Directors' Committee, the bonus of RUR 40 thousand shall be paid to him in addition to his quarterly remuneration; a member of the Board of Directors shall not be at the same time a member of more than two Committees of the Board of Directors.

This bonus for the Chairman of a Board of Directors' Committee shall be rated by a raising factor 1.25.

The Issuer's Annual General Shareholders' Meeting held on June 30, 2005 adopted the following resolutions (Minutes № 16 of June 30, 2005):

To approve the following rates of deductions for calculation of the annual remuneration to be paid to the members of the Board of Directors elected at the present Meeting :

0.143% of the Company's EBITDA for the reporting year as per the Company's IFRS 2005 financial statements;

0.784% of the Company's net profit allocated to dividend payment according to 2005 financial results.

According to the Provisions on the Company's Management Board approved by the Extraordinary General Shareholders' Meeting on January 21, 2003 (Minutes # 13) and amended on June 30, 2004 (Minutes of the Annual General Shareholders' Meeting # 15) size of remuneration and its distribution among the members of the Management Board shall be determined by the resolution of the Board of Directors of the Company.

According to the Provisions on the Remuneration to the Company's Management Board approved by the Board of Directors on September 6, 2005 (Minutes # 6) remuneration to the members of the Management Board shall be paid on the basis of performance results for each quarter. Total amount of a quarterly remuneration to the members of the Management Board shall be determined by the resolution of the Board of Directors of the Company but shall not exceed 150,000 rubles to each member of the Management Board for a quarter.

Size of remuneration shall be calculated on the basis of the following characteristics:

- execution of the basic planned economic parameters of the Company's budget;*
- fulfillment of the decisions taken by General Shareholders' Meetings and Board of Directors of the Company;*
- quality of preparation of materials for the Board of Directors meetings.*

The item on definition of the size of quarterly remuneration to the Management Board shall be without fail considered by the Personnel and Rewards Committee of UTK's Board of Directors.

The sum of quarterly remuneration to the Management Board determined by the resolution of the Board of Directors shall be distributed equally among the members of the Management Board.

The Board of Directors can take a decision on reduction of the total amount of quarterly remuneration to each membership of the Management Board being in office during the quarter. Total amount of such reduction may reach 100% of the maximal size of quarterly remuneration to the members of the Company's Management Board.

In addition, members of the Board of Directors and the Management Board of the Issuer who are the employees of "Southern Telecommunications Company" PJSC shall receive salaries and bonuses according to the staff list of "UTK" PJSC.

5.4. Data on the Structure and Terms of Reference of the Bodies of Control over Financial and Economic Operation of the Issuer

Description of the structure and terms of reference of the bodies of control over financial and

economic operation of the Issuer in accordance with its Charter.

To exercise control over financial and economic operations, the Company creates an Auditing Commission, a special structural division exercising the internal control functions, and engages an external auditor.

Full and abbreviated registered names, location of organization that assigned the credit rating:

Company " Standard & Poor's International Services Inc." (Standard & Poor's)

Location: *615 South Dupont Highway,Dover, Kent county, Delaware, USA.*

Brief description of the method of assigning the credit rating:

Issuer's credit rating according to Standard & Poor's international scales expresses the current opinion on general credit capacity of the Issuer of bonds, underwriter or guarantee, business partner, its ability and intention to service its debt in full and in due time.

Standard & Poor's assigns ratings on the basis of transparent methodology taking into consideration quantitative and qualitative factors, financial risks and business risks only if there is sufficient information.

Depending on categories of issuers and type of rating, there are different methods of Standard & Poor's rating assignment. Thus, in the case of companies, the characteristics of the

business (market, position in competition, management and strategy) are analyzed, as well as the financial profile (financial policy, profitability, capital structure, cash flow indices, financial flexibility).

Standard & Poor's Russian national credit rating scale serves issuers, insurers, counter parties, intermediaries and investors in the Russian financial market by providing both Debt Credit Ratings which apply to a specific debt instrument, and Enterprise Credit Ratings which apply to an obligor (i.e., borrower, guarantor, insurer, or other provider of credit enhancement). The Russian national credit rating scale uses Standard & Poor's global rating symbols with the addition of "ru" prefix to denote "Russia" and the scale's focus on Russian financial markets. The criteria employed for determining ratings on the Standard & Poor's Russian National Scale are broadly similar to those employed on the Standard & Poor's Global Scale.

However, certain direct sovereign risk considerations weigh less heavily on the Standard & Poor's Russian National Scale than on the global scale. For example, some types of sovereign risk considerations that can adversely affect all Russian obligors equally are not considered within the bounds of Standard & Poor's National Scale. Indeed, sovereign risk is examined only in a local context relative to the credit risk of other Russian obligors. As a result, the Standard & Poor's Russian National Scale is not directly comparable to Standard & Poor's global scale or to any other national rating scale.

Other information about the credit rating specified at the Issuer's own discretion:

On 26th September 2005 Standard & Poor's revised its outlook on "UTK" PJSC to Stable from Negative due to the Company's ability to stabilize its financial profile shown in first-half-2005. At the same time Standard & Poor's affirmed its «CCC+» long-term corporate credit rating and «ruBB» Russia national scale and senior unsecured debt ratings on the Company.

According to Standard & Poor's analysts, outlook revision reflects UTK's showing noticeable improvements in its operating and financial performance during 2005 as the Company stuck to its promised focus on cost control, much reduced capital spending and profitability enhancements.

The ratings, however, remain constrained by the Company's weak liquidity position, significant debt levels, limited business diversification, and uncertainties associated with industry restructuring. These risks are moderated by UTK's solid market position, its improving operations, progress in the regulation of local tariffs, and growth potential.

Stable outlook reflects Standard & Poor's expectation that UTK's continuing focus on stringent cost and cautious approach to capital investments – combined with increasing EBITDA and cash flow generation will help the Company to stabilize its financial profile.

On February 2, 2005 Standard & Poor's lowered its long-term corporate credit rating of "UTK" PJSC from «B-» to «CCC+» (outlook — «Negative») because of substantial increase in financial risks. At the same time Standard & Poors lowered its Russia national scale senior unsecured issuer rating from «ruBBB-» to «ruBB».

On 10.02.2004 Standard and Poor's changed the outlook of UTK ratings from "Stable" to "Negative" that reflected expectations of the rapid growth of a negative operating cash flow and debt obligations in 2003.

At the same time Standard and Poor's confirmed its «B-» long-term credit rating of "UTK" PJSC according to international scale, but decreased Russia national scale credit ratings of the Company and its senior unsecured bond issues from "ruBBB" to "ruBBB-".

Credit analyst of Standard and Poor's Pavel Kochanov noted: "Increase in a negative free operating cash flow and debt obligations has exceeded initial expectations of Standard and Poor's; similar changes in financial position of "UTK" PJSC can be continued in 2004 ".

The aggressive investment policy is aimed at essential increase in revenues from traditional telecommunications services and new non-regulated telecommunications services, however Standard and Poor's believes, that impact of capital investments on revenue growth and profitability of the Company in the next several years are uncertain at the given stage. Demand for new

telecommunications services due to which the Company expects to increase proceeds, and also revenue growth from extension of the subscriber base can appear not so optimistic.

On August 6, 2003 Standard & Poor's assigned its "ruBBB" Russia national scale rating to "Southern Telecommunications Company" PJSC. At the same time Standard & Poor's assigned its "ruBBB" Russia national scale rating to "UTK" PJSC proposed Russian ruble 1.5 billion senior unsecured bond issue due 2006. The proceeds from the bond issue will be used to finance RUR 5 billion capital expenditure program in 2003 which will further upgrade the company's outdated network and expand its network capacity.

The ratings continue to be supported by "UTK" PJSC dominant market share as the main provider of essential telecoms services in the southern region of the Russian Federation and progress in enabling the provision of a wider range of higher-quality services. Standard & Poor's expects "UTK" PJSC to increase its debt to a manageable level without materially weakening its financial profile and ability to service its debt obligations.

The rating action of 02.04.2003 reflects the net benefits of the merger of Southern Telecom with nine other fixed-line incumbents in the southern region of Russia that are controlled by the state-owned holding Syvazinvest. The merger has resulted in a stronger competitive position and improved business profile for the company. The outlook is stable. The new company--which had approximately 3x greater revenues of about \$331 million in 2002 --should benefit from its larger scale by receiving better terms from vendors of telecoms equipment. The merger will also give it a stronger market position that is less vulnerable to weaknesses in a particular area or customer segment, and make it easier to access capital markets.

Offsetting these gains to some extent is the fact that the enlarged service area has marginally less attractive average market characteristics and will require integration work and additional investments to reconcile and improve network characteristics to a more uniform level across the whole area. It is expected that Southern Telecom will continue with its structural reorganization, management improvement, and network modernization, and that it will execute its business plan without materially weakening its financial profile and ability to service its debt obligations.

A manageable increase in debt is already factored into the rating on Southern Telecom. The rating assumes, however, that operating cash flow will be sufficient to service debt in the short-term and that the company can return to free operating cash flow generation in the medium term as network investments are completed.

Brief description of the method of assigning the credit rating:

Issuer’s credit rating expresses the current opinion on its ability and intention to service its debt in full and in due time.

Interfax rating agency (IRA) assigns credit ratings to the Russian companies according to national scale of the agency. Credit rating of IRA is an instrument allowing local investors to differentiate credit risks of various Russian borrowers as well as their obligations. Such borrowers and obligations can turn out to be indistinguishable when using international ratings, which take into consideration country risks. IRA national scale credit ratings do not take into account some country risks, in particular, risk of introduction of governmental restrictions on transfer of foreign currency abroad, as well as other system-defined risks relating equally to all borrowers in Russia.

Quantitative analysis plays an important role when assigning credit rating to a company, however assignment of a credit rating is not reduced to application of some universal formula including a number of quantity indicators. IRA pays special attention to qualitative analysis of existing and future credit risks to which companies and their obligations are subject. Experts of IRA make their final opinion on a company’s credit status on the basis of the qualitative analysis of risk factors and possible changes in the environment of the company’s activity which may result in the company’s default on its obligations. Great attention is paid to comparison of the company being under rating procedure with other companies of the sector and-or special group of companies. The main object of the analysis is the company’s ability to generate cash flow sufficient for financing urgent investments, dividend payments and debt service.

When assigning a credit rating, experts of IRA usually rely on the information about the activity of a company being under rating procedure including on its financial accounts for the last 3-5 years as well as use corresponding forecasts both of a company’s specialists and of its own.

The basic aspects of the analysis of companies’ credit status are the following:

- *sector risks,*
- *political and regulatory risks,*
- *market position of the company and its business efficiency,*
- *management quality,*
- *ownership structure,*
- *financial risk.*

Other data on the credit rating specified by the Issuer at its own discretion:

Credit ratings have been assigned in association with international rating agency Moody’s Investors Service.

The rating reflects UTK’ s strong position on the telecommunications market of the Southern Federal District; the company’s strengthening position on the fast-growing and lucrative segment of the market for new communications services; improved technical condition of networks; and opportunity to receive support from the state. The rating is constrained by government tariff regulation, aggressive investment policy, growing competition from alternative telecoms providers.

Brief description of the method of assigning the credit rating:

Rating methodology consists in expressing the opinion of the rating agency whether an issuer is able to pay its debts in due time and revealing the stable cash flow to debt ratio. Rating methodology includes the following main criteria:

- *State support (participation of the state in the Company). The principle is to analyze a degree of participation of the state in the Company. Companies which are completely privatized as well as state corporations are not supported;*
- *Degree of the state regulation of the market. The principle partly follows from the previous one – influence of the state regulation can not correspond with the conditions of the market economy;*
- *Competitive Environment. The principle is to estimate the potential of the regional market;*
- *Management potential. The principle is to estimate the ability of the management to make correct decisions in the conditions of the market dynamics (market adaptation);*
- *Management strategy. The principle – the strategy should reflect viability of the approved plans of the Company, taking into account every possible risks;*
- *Diversification strategy. The principle is to reveal the signs of the business diversification;*
- *Financial management. The principle is to control the conformity of made (planned) capital investments with the amount of attracted funds;*
- *Financial showing. The principle – the higher the indicators providing duly debt services (debt + interest), the better. Regular costs control and outstripping growth of revenues over expenses.*
- *Stock market strategy. The principle is the ability of the Company to generate its own sources of circulating assets (as the factor of the liquidity growth).*

The Company's credit rating is determined on the basis of analysis and combination of the given principles.

Company " Standard & Poor's International Services Inc." (Standard & Poor's)

Location: 615 South Dupon Highway, Dover, Kent, Delaware, USA.

Brief description of the method of assigning the credit rating:

Standard & Poor's Russian national credit rating scale serves issuers, insurers, counter parties, intermediaries and investors in the Russian financial market by providing both Debt Credit Ratings which apply to a specific debt instrument, and Enterprise Credit Ratings which apply to an obligor (i.e., borrower, guarantor, insurer, or other provider of credit enhancement). The Russian national credit rating scale uses Standard & Poor's global rating symbols with the addition of "ru" prefix to denote "Russia" and the scale's focus on Russian financial markets. The criteria employed for determining ratings on the Standard & Poor's Russian National Scale are broadly similar to those employed on the Standard & Poor's Global Scale.

However, certain direct sovereign risk considerations weigh less heavily on the Standard & Poor's Russian National Scale than on the global scale. For example, some types of sovereign risk considerations that can adversely affect all Russian obligors equally are not considered within the bounds of Standard & Poor's National Scale. Indeed, sovereign risk is examined only in a local context relative to the credit risk of other Russian obligors. As a result, the Standard & Poor's Russian National Scale is not directly comparable to Standard & Poor's global scale or to any other national rating scale.

Brief description of the method of assigning the credit rating:

Credit rating of a bonded issue or type of the company's bonded issues expresses the current opinion on its credit status relating to such bonded issue/type of bonded issues.

Interfax rating agency (IRA) assigns credit ratings to the Russian companies according to national scale of the agency. Credit rating of IRA is an instrument allowing local investors to differentiate credit risks of various Russian borrowers as well as their obligations. IRA national scale credit ratings do not take into account some country risks, in particular, risk of introduction of governmental restrictions on transfer of foreign currency abroad, as well as other system-defined risks relating equally to all borrowers in Russia.

Credit rating of a separate obligation (bonded issue) cannot coincide with the company's credit rating because it must take into account the issue's structure, degree of security of the rights of the creditor under the obligation, credit status of underwriters of the bonded issue. If the bond issue is objectively secure enough, that is, provides for certain forms of risks reduction such as, for example, reliable security, then credit rating of the obligation can be higher than the rating of the borrower.

Quantitative analysis plays an important role when assigning credit rating to a company, however assignment of a credit rating is not reduced to application of some universal formula including a number of quantity indicators. IRA pays special attention to qualitative analysis of existing and

Rights granted by each security of the issue to their holders:

A Bondholder is entitled to get the face value of the Bond specified in paragraph 4 of the Resolution on the Bond Issue when the Bond is retired.

A Bond holder is entitled to get the interest of the Bond face value (coupon yield), fixed in the Bond, the procedure of determining such interest being described in paragraph 8.3 of the decision on the issue and payout period - in paragraph 8.4 of the decision on the issue.

A Bondholder is entitled to get the face value of the Bond in case of liquidation of the Issuer in the sequence established by article 64 of the Civil Code of the Russian Federation.

A Bondholder is entitled to freely sell or otherwise alienate the Bond.

A Bondholder who bought a bond during primary distribution has no right to conduct transactions with this bond before the state registration of the report on the results of the bond issue pursuant to the legislation of the Russian Federation.

If the Issuer refuses to fulfill its obligations on bond issue, a Bondholder is entitled to exercise his rights in accordance with the procedure prescribed by paragraph 8.6 of the Resolution on the bond issue and paragraph 56.11 of the Prospectus on Bonds.

A Bondholder is not entitled to present a Bond of the issue for retirement before maturity except for the following cases:

- 1) coming into effect court decision on the Issuer's bankruptcy;*
- 2) taking decision on the Issuer's liquidation by the Issuer's body authorized to take such decision;*
- 3) coming into effect court decision on the Underwriter's bankruptcy;*
- 4) taking decision on the Underwriter's liquidation by the Underwriter's body authorized to take such decision;*
- 5) not meeting the commitments by the Issuer to pay coupon income on the bond issue within 10 (ten) business days from the date of payment of this coupon income specified in the*

alienation of Bonds after Date of making up a list of owners and Holders of Bonds with a view of redemption.

Not later than 2 (two) working days prior to the Maturity Date the Depositary provides the Issuer with the list of owners and Holders of the Bonds, made on Date of making up the list of owners and Holders of Bonds with a view of the bond redemption including the following data:

a) A full name of the person, authorized to receive the redemption sums under Bonds.

If Bonds are transferred by the owner to the Holder and the Holder is authorized to receive the sums of repayment under Bonds, the full name of the Holder shall be specified. If Bonds have not been transferred to the Holder and-or the Holder is not authorized by the owner to get the sums of repayment under Bonds, the full name of the owner of Bonds (First name, middle initial, last name the owner - for the physical person) shall be specified:

b) Number of the Bonds on the account of depot of the owner or inter-deposit account of depot of the Holder of Bonds, authorized to receive the sums of repayment under Bonds;

c) Location and postal address of the person, authorized to receive the sums of repayment under Bonds;

d) The name and essential elements of the bank account of the person, authorized to receive the sums of repayment under Bonds, namely:

- Number of the account;

- The name of bank in which the account is open;

- The correspondent account of bank in which the account is open;

- Bank identification code (BIK) of bank in which the account is open;

e) Tax-payer's Identification number (TIN) of the person, authorized to receive the sums of repayment under Bonds;

f) The tax status of the person authorized to receive the sums of repayment under Bonds (resident, non-resident with permanent representative office in the Russian Federation, non-resident without permanent representative office in the Russian Federation, etc.).

A Bond Holder independently monitors the completeness and actuality of the data provided by it to the Depositary (the information necessary for execution of obligations under Bonds). Should the said data fail to be submitted, or fail to be submitted in due time to the Depositary, execution of such obligations shall be effected in favor of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. In such a case the Issuer fulfils the obligations under the Bonds on the basis of the Depositary's data. In this case obligations of the Issuer are considered executed in full and properly.

Not later than 1 (one) working day before the Maturity Date, the Issuer transfers the appropriate money to the Payment Agent's account.

At repayment of Bonds the coupon income is paid for last coupon period also.

On the basis of the list of Bond Owners and Holders, provided by the Depositary, the Payment Agent calculates the amounts of money to be paid to each Bond Owner and Holders authorized to receive Bond redemption amounts.

As at the date of Bonds redemption the Payment Agent transfers the appropriate money to accounts of the persons authorized to get the sums of redemption under Bonds, specified in the list of the Bond Holders and Owners.

If one person is authorized to receive Bond retirement amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner. The Bond holders who are not owners of Bonds, transfer money received as Bond redemption payment to the Bond owners according to the procedure determined between the Holder of Bonds and the owner of Bonds.

Obligations of the Issuer on Bonds redemption are considered executed after charge-off of money from the correspondent account of the bank serving the Issuer and-or the correspondent account of the bank / credit organization of the Payment agent in return for face-value of Bonds and the coupon income for the last coupon period in favor of owners and Holders of Bonds.

Bonds are being charged off the accounts of depot in the Depositary at repayment of all Bonds after

execution by the Issuer and/or Payment Agent of the obligations on transferring amounts required to fulfill the payment commitments on Bonds redemption and payment of the coupon income for the last coupon period.

The Certificate is to be cancelled after all Bonds are written off the accounts of depot of the Depositary.

Bond Owners, their authorized persons including depositors of NDC are obliged to provide all necessary information to NDC and independently control the completeness and actuality of the data provided by them to the Depositary, they bear all the risks related to non-provision/untimely provision of such information.

Should the said data fail to be submitted, or fail to be submitted in due time to NDC, the Issuer bears no responsibility for untimely or undue execution of obligations on Bond redemption. It is the Owner of Bonds who takes the risks of damages in case of untimely or incomplete submission of the above-mentioned data.

Should the said data fail to be submitted, or fail to be submitted in due time to NDC, execution of such obligations shall be effected in favor of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. The Issuer fulfils the obligations under the Bonds on the basis of the NDC's data. In such a case obligations of the Issuer are considered executed in full and properly. If the essential elements of bank account and other information necessary for execution by the Issuer of its obligations under Bonds, provided by a Bond owner or Bond Holder or available in the Depositary, do not allow the Payment agent to transfer money resources in due time such delay cannot be considered as a delay of execution of obligations under Bonds, and a Bond owner has no right to claim extra interest or any other compensation for such delay in payment. In cases stipulated by the Agreement with NDC the Issuer is entitled to demand confirmation of such data by information from the Register.

On the basis of the list of Bond Owners and/or nominal Holders, provided by NDC, the Payment Agent calculates the amounts of money to be paid to each person authorized to receive Bond redemption amounts.

Not later than 3 (three) working days before the Maturity Date, the Issuer transfers the appropriate

money to the Payment Agent's account.

As at the date of Bonds redemption the Payment Agent transfers the appropriate money to accounts of the persons authorized to get the sums of redemption under Bonds for the benefit of the Bond Owners.

If one person is authorized to receive Bond redemption amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner.

The Maturity date:

The first day of the Maturity date:

the 1 830th (one thousand eight hundred and thirtieth) day from the starting date of the bonds placement.

The last day of the Maturity date:

Coincides with the first day of the Maturity date.

Size of interest yield (coupon income) on Bonds, procedure and terms of its payment.

Procedure of calculating income paid under each bond:

Coupon period		Coupon income
Starting date	Expiry date	

1st Coupon: Annual interest rate on the first coupon is to be fixed during the auction held in the MICEX Stock market section among the potential buyers of the Bonds on the starting day of the bond placement (12.3%).

On the date of the Auction the members of the Stock Market Section of MICEX (hereinafter referred to as the Section Members) shall submit target orders for the Bond acquisition with T0 code through the trading system of MICEX in compliance with the Securities Trading Rules of MICEX and other regulatory documents of MICEX both at their own expense and at the expense and on behalf of their client. Time and procedure for submission of orders for participation in the auction on determination of the first coupon interest rate are defined by the Moscow Interbank Currency Stock Exchange as agreed with the Issuer and-or the Underwriter. The members of the Stock Market Section of MICEX shall submit orders for the Bond acquisition to the Underwriter.

Each order shall include the interest rate under the first coupon at which potential buyers are ready to acquire the number of Bonds specified in the order. Interest rate on the first coupon specified in the order shall be expressed as annual interest rate to the 100-th share of percent.

By the beginning of the Auction the members of the Stock Market Section of MICEX participating in the Auction shall have to reserve money resource, sufficient for full payment of the Bonds specified in the orders for purchase including MICEX commission fee.

The orders, which do not conform, to the above-mentioned conditions are not allowed to take part in the Auction.

After the period of submission of the orders for the Auction expires, members of the Stock Market Section of MICEX cannot withdraw the submitted orders.

After the period of submission of the orders for the Auction expires, MICEX shall make a joint register of the submitted orders for the Issuer and/or Underwriter.

The joint register of the submitted orders shall include all terms specified in each order, namely: the price of acquisition, number of securities, date and time of the order's reception as well as the name of the Member of the Section who submitted the order. The joint register of the submitted orders shall be approved by the Financial Consultant in the equity market.

Individual executive body of the Issuer shall make decision on the size of the annual interest rate under the first coupon on the basis of total number of the submitted orders and the interest rates on the first coupon indicated in them. The Issuer shall inform the MICEX about such decision in written form not later than 30 minutes prior to its sending to a news agency. After sending notification on the size of the interest rate under the first coupon to a news agency the Issuer informs the Underwriter about the size

of the interest rate under the first coupon. The Underwriter informs all members of the MICEX Stock Market Section about the size of the interest rate under the first coupon fixed by the Issuer using MICEX Trading system by means of e-mail to all members of the MICEX Stock Market Section.

The information on the interest rate under the first coupon shall be disclosed in terms and order stipulated in item 11 of the Decision on the bond issue and item 2.9 of the Emissive Prospectus of the securities.

8.5. Conditions of Ensuring Fulfillment of Commitments under the Bonds of the Issue

1) Conditions of ensuring fulfillment of commitments under series 01 non-convertible interest-

bearing certificated pay-to-bearer bonds with mandatory centralized custody

Kind of security: *underwriting*.

Volume of security that the Underwriter provides for Bond owners in case of default by the Issuer of the payment commitments on Bonds (payout of par value, coupon income payment, other property rights granted by the bonds):

Maximum sum - the size of obligations of the Underwriter under the given security, shall not exceed 1,500,000,000 (one and a half billion) rubles.

Underwriting is an unconditional and irrevocable commitment of the Underwriter to each owner of Bonds to pay the sum equal to par value of Bonds, to be paid by the Issuer according to the Decision on Bond Issue and the Prospectus of Bonds (hereinafter referred to as - terms of Bond Issue) to any owner of Bonds, for any reason, in time, currency and at the date, stipulated by terms of Bond Issue within the limits of the Maximum sum.

Acquisition of Bonds means the conclusion of contract of the guarantee among the purchaser of Bonds (further – Bond owners) and the Underwriter. Rights under the specified contract of guarantee shall be transferred to a purchaser together with other rights on Bonds in the same volume and on the same conditions, which exist at the moment of transferring such rights.

The Underwriter and the Issuer carry joint liability before Bond owners under obligations to pay par value of the Bonds arising in connection with Bond issue and placement.

Procedure of making claims by Bond owners to the Underwriter

Under condition of reception of the notice from the owner of Bonds about non-fulfillment of payment by the Issuer the Underwriter undertakes to provide (without any demand to the owner of Bonds to take measures concerning the Issuer or any other person) fulfillment of such payment as though the Underwriter has been specified instead of the Issuer as the basic person who has accepted the terms of Bond issue so that the Owner of Bonds would receive the same sum of the same currency as he should receive if this payment would be made by the Issuer according to terms of Bond issue, within no more than 70 (seventy) days after the date of such payment, but as a whole not later than 10 (ten) days after receiving the notice from the owner of Bonds.

The notice should be made in writing and sent to the Underwriter by registered mail or handed the authorized representative of the Underwriter on receipt.

The notice may be directed to the Underwriter during 60 (sixty) days from the moment of non-fulfillment of payment by the Issuer to the postal address of Joint-Stock Company " Management company "BFA": 212, Moskovskiy pr., Saint Petersburg, 196066 Russia

The following documents should be enclosed to the notice:

- *A copy of an extract from the account of depot (inter-deposit account) of the Depositary of the owner of Bonds in the Depositary as at the date of making up of the list of Holders of Bonds as it is determined in the Decision on Bond issue and the Prospectus of Bonds;*
- *A copy of an extract from the account of depot of the owner of Bonds as at the date of making up of the list of Holders of Bonds as it is determined in the Decision on Bond issue and the Prospectus of the Bonds, certified by the Depositary of the owner of Bonds in case the account of Bonds is carried out in the Depositary of the owner of Bonds having inter-deposit account in the Depositary;*
- *The documents confirming powers of persons who have signed the claim on behalf of the owner of Bonds (in case of presentation of the claim by the authorized persons of the owner of Bonds);*
- *Notarized samples of signatures of the persons who have signed the claim on behalf of the owner of Bonds.*

The notice should include amount of money to be paid to the owner of Bonds under the underwriting as well as description of the breach of the Issuer's obligations secured by the Underwriter.

Claim to the Underwriter can be made by a person – depositor of the Depositary, which keeps the bonds (hereinafter referred to as - "Bond Holder") for the benefit of Bond owners being depositors of such Bond Holder. In this case, Bond Holder should confirm its powers in the claim applications on behalf of owners of Bonds.

The notice should contain payment essential elements and other data of the person making the claim (the name for the legal person or a surname, name and patronymic for the physical person, the address of his site (residence), TIN, for physical persons - passport data, for legal entities - codes OKPO and OKVED (OKONKh), for bank establishments - BIK), necessary for transferring money to the owner of Bonds. The claim on payment of cash shall not be satisfied.

Within 10 (ten) days from the date of receiving the above-stated documents, the Underwriter shall carry out their check and in case they meet the requirements of the present Guarantee, fulfill payment of the sum due to the owner of Bonds, according to the payment essential elements specified in the claim. Obligations of the Underwriter are considered executed from the moment of charge-off of the corresponding sum from the account of the Underwriter for the benefit of the owner of Bonds.

If the Notice or the enclosed documents do not meet the requirements of the present Guarantee, the Underwriter is obliged to send notification on the reasons of refusal to satisfy the claim of the Bond owner to the owner of Bonds not later than 5 (five) working days from the moment of receiving the requirement.

4) Conditions of ensuring fulfillment of commitments under series 04 non-convertible interest-bearing certificated pay-to-bearer bonds with mandatory centralized custody

Kind of security: *underwriting.*

Volume of security that the Underwriter provides for Bond owners in case of default by the Issuer of the payment commitments on Bonds (payout of par value, coupon income payment, other property rights granted by the bonds):

The Underwriter and the Issuer carry joint liability before Bond owners under obligations to pay:

- *par value of the bonds (or part of their face value);*
- *coupon income under bonds.*

Procedure of exercising by Bond owners their right on provided security:

Item 12.2 of the Decision on Bond Issue and item 9.1.2 of the Prospectus on the bond issue represent the offer of the Underwriter to conclude the contract of guarantee on the stated conditions (hereinafter referred to as - "Offer").

By this Offer the Underwriter undertakes to assume liability before the buyers of the bonds (hereinafter referred to as – Owners of the bonds) under the Issuer's obligations under the Emissive Documents:

- *to pay par value of the bonds (or respective portions of their face value) to the Owners of the bonds,*

- to pay coupon income under the Bonds,
on the following conditions:

Volume of security that the Underwriter provides for Bond owners in case of default by the Issuer of the payment commitments on Bonds is limited by the Maximum Sum.

In case of undue execution and/or default of the Issuer's obligations the Underwriter and the Issuer carry joint liability before Owners of Bonds.

The Underwriter undertakes to execute the Issuer's Obligations in the part that has not been executed by the Issuer in the following cases:

- *the Issuer has not paid or has not paid in full the respective portion of the bond face value to Bond Holders during redemption in size, order and terms determined by Emissive Documents;*
- *the Issuer has not paid or has not paid in full the coupon income under the bonds to Bond Holders in size, order and terms determined by Emissive Documents.*

Under the Offer terms the Underwriter undertakes to execute the Obligations of the Issuer not executed by the Issuer in the Volume of Non-executed Obligations and within the limits of the Maximum Sum. The volume of Non-executed Obligations is determined by the Underwriter on the basis of the Claims to Fulfill the Obligations received from Bond owners.

The Claim to Fulfill the Obligations shall meet the following conditions:

- *The Claim to Fulfill the Obligations shall be presented to the Underwriter in writing in Russian and signed by the Bonds Owner (or its authorized representatives);*
- *The Claim to Fulfill the Obligations shall contain:*
 - *full personal or official name of the Bonds Owner,*
 - *tax-payer's No. of the Bonds Owner,*
 - *tax status of the Bonds Owner,*
 - *place of residence (location) of the Bonds Owner,*
 - *details of the bank account of the Bonds Owner to transfer monies,*
 - *number of the Bonds, under which the Claim to Fulfill the Obligations is presented;*
 - *scope of Unfulfilled Obligations in respect of the Bonds Owner who is sending such a Claim to Fulfill the Obligation.*
- *The Claim to Fulfill the Obligations shall state that the Issuer has not fulfilled or failed to fulfill completely and within the timing set forth in the Emissive documents:*
 - *the obligations to pay a respective part of the face value;*
 - *the obligations to pay the coupon yield;*

The Claim to Fulfill the Obligations shall be presented to the Underwriter no later than 90 (ninety) days from the respective Due Date of Issuer's Obligations Execution in respect of the Bonds Owner sending such a Claim to Fulfill the Obligations. The date when the Company receives the Claim shall be considered as the date of presenting Claim.

To prove the rights of the Bonds Owner to the Bonds stated in the Claim to Fulfill the Obligations, such claim shall be accompanied by a statement of the custody account with the NDC or depositaries, which are depositors of NDC, as of the Date of Making up the List of Owners and/or Nominal Holders of the Bonds for the purpose of paying the coupon yield under the Bonds and/or Bonds retirement, determined in compliance with the Emissive documents.

The Claim to Fulfill the Obligations and documents enclosed thereto shall be sent to the Underwriter by registered mail, by messenger mail or express mail.

The Underwriter shall consider the Claim to Fulfill the Obligations within 14 (fourteen) days from the day of the expiry of the period of 90 (ninety) days. The Underwriter is entitled to express any objections against the Claim to Fulfill the Obligations that could be presented by the Issuer, and shall not lose the right of such objections even if the Issuer waives them or recognizes its debt.

Claims to Fulfill the Obligations presented to the Underwriter later than 90 (ninety) days from the

respective Due Date of Issuer's Obligations Execution in respect of the Bond Owners sending such a Claim to Fulfill the Obligations shall not be considered by the Underwriter.

If the Underwriter chooses to satisfy a Claim to Fulfill the Obligations, the Underwriter shall notify the Bonds Owner thereof and, within 30 (thirty) days from the day of expiry of the period for consideration of the Claim to Fulfill the Obligations, shall effect a money transfer in compliance with the terms and conditions of the Offer to the Bond Owner's bank account, the details of which are stated in the Claim to Fulfill the Obligations.
